\$61,720 and under	50%

APPLICATION FOR TUITION ASSISTANCE

All applicants must complete the **ALCS Tuition Assistance Application** and **attach of a copy of their 2022 Federal Form 1040 Tax Return** to be eligible for consideration.

Re-enrolling families should submit their application upon re-enrollment and prior to April 18, 2023, to be eligible for consideration prior to having to make their first tuition payment. Any previous debt to the school must be paid prior to Tuition Assistance being made available for the coming school year.

New Families families should complete and return their Tuition Assistance Application along with their new student application(s) when seeking admission fo the current year.

ALCS reserves the right to require verification or inquiry of pertinent financial data, including 1040 tax returns. On rare occassions, tuition assistance may not be fully granted if a family has unusually significant assets (or net worth) in relation to family income.

The maximum qualifying tuition assistance percentage is 50%. In addition, tuition assistance is only available to reduce tuition. All other fees (such as registration, school supplies, extra curricular activities, lunch/meal charges, etc.) do not qualify for scholarship assistance.
